“ Oh Lynn....

*It seems we got along much better when we weren't married. I must say that working with you was just awesome. Your excellent work ethic and pride was definitely passed on to those you taught and especially to Cherie and Holly. I learned to love a lot of things in life that I still do now.... fascination with machining (manual machines.. drill press, hand-screw and how to read my tools )cars ( body styles, types, engines ) and pride in being the best.*

*Remember building Akraturn in Uncle Pat's garage? 3 8hr shifts and you (we) had the night shift. Hand-screw 101! Aunt Marilyn's dryer was the tumbler!!*

*Remember the Chevelle SS 396? It had mushrooms growing under the floor mats when we bought it for \$900. What a beauty! Those white bench seats! We did have a lot of fun!*

*I have said my prayers to you privately. I am deeply saddened by your passing and only hope you may Rest In Peace for all eternity. Until we meet again*

*Jamie*
